Attachments: NWEA Letter NOAA EPA Response Draft 2-26-15.docx

I checked with Bella on the status of this letter. She was to get it completed and signed on Thursday and she is checking now to see where it is.

The language had been changed to read "...expressing the Northwest Environmental Advocates' concerns about Oregon's current plan on developing riparian logging rules. These rules may become part of Oregon's efforts to address the remaining conditions of its Coastal Nonpoint Pollution Control Program."

Jayne,

Did this go out? If so, I think we may get some negative feedback when ODF gets this. It is not accurate. My understanding is that the riparian rule change has been driven by the results of the RipStream data and the other studies showing that ODF rules do not support WQSS. ODF and the Board of Forestry are not working on a rule change to satisfy CZARA, as stated in the letter. I don't remember when CZARA has been a focused discussion of the Board's. The wording of the letter makes it sound like the rule change is being done to satisfy CZARA. It may be too late to make language changes. If not, let's talk.

Alan

Hi All,

NOAA/EPA's response to NWEA's Feb 11 letter is ready for your review.

See attached.

Ex. 6 - Personal Privacy

and I won't be working on Friday so either provide me your comments by 4 pm today (7 pm EST) or send your comments directly to Christine on Friday. Hoping to have the letter signed Friday (or today) and emailed to Allison for NOAA's signature by Friday. I also attached NWEA's letter, FYI.
